

Best-in-class air decontamination for critical environments.

Featuring twice as many UV-C lamps as the VK 103, the VK 102 is designed for maximum decontamination and odor control in larger spaces or critical environments.

Features

- **All-in-One:** Unrivalled performance against organic pathogens – viruses, bacteria, mold, and fungi – as well as allergens, irritants, smoke, and VOCs.
- **Single Air Pass:** Decontamination performance measured in only a single air pass.
- **Airflow Control:** VIRUSKILLER™ precision airflow control draws contaminated air away from occupants, expelling clean, fresh air into the breathing zone of the room.
- **Plug and Play:** Simple operation means out-of-the-box indoor air safety, with no complex installation, setup, or renovation required.
